Professional Summary

A highly motivated Unified Collaboration Engineer with hands-on experience across Cisco, Avaya, and Open-Source VoIP solutions. Skilled in designing, deploying, and troubleshooting enterprise communication environments, including CUCM, UCCX, Expressway, Unity Connection, and WebEx Hybrid Services. Strong background in SIP/RTP call flows, contact centre technologies, scripting with UCCX IVR, and voice gateway integration. A proactive engineer with strong analytical abilities, dedicated to delivering reliable communication systems and continuously expanding technical expertise.

Objective

Seeking a challenging and growth-oriented role in Unified Collaboration Engineering where I can apply my Cisco and Avaya expertise, optimize VoIP infrastructures, develop advanced contact center solutions, and contribute to the success of a high-performing engineering team.

Education

Bachelor of Computer Science

Misr Higher Institute of Engineering and Technology, Mansoura — 2022

- Overall Grade: Good
- Graduation Project: “Ajrli” – Real-estate rental platform (Grade: Excellent)

Work Experience

Unified Collaboration Engineer — QuadraTech for Information Technology

September 2024 – Present

- Designed, deployed, and managed Cisco Collaboration environments (CUCM, IM&P, CUC, Expressway C/E).
- Developed, enhanced, and troubleshoot Cisco UCCX IVR scripts using Script Editor.
- Managed Webex Hybrid Services (Calendar, Messaging, Meetings integration).
- Performed end-to-end SIP troubleshooting with logs, traces, and packet captures.
- Managed call routing, dial plans, SIP trunks, and endpoint provisioning.

VoIP Engineer — Bevatel

June 2024 – September 2024

- Supported and maintained VoIP solutions for enterprise clients.
- Configured SIP trunks, extensions, inbound/outbound routing.
- Troubleshoot SIP signaling, RTP media issues, and call quality problems.
- Integrated and maintained FreePBX, Issabel, and Asterisk-based VoIP systems.
- Conducted system performance optimization and customer support.

Telecom Egypt (WE) – TEData Operations Team

April 2024 – June 2024

- Supported real call centers across multiple organizations.
- Worked on Avaya Recording Systems (AWFO), Avaya CM, and CMS.
- Handled routing issues, agent operations, and system troubleshooting.
- Coordinated with CRM teams to ensure smooth operations and service continuity.

Internships & Training

Advanced Cisco & Avaya VoIP/Collaboration Internship — NTI

January 2024 – April 2024

Completed courses:

- CCNP & CCIE Collaboration Core (CLCOR 350-801)
- CCNP Collaboration Call Control & Mobility (CLACCM 300-815)
- Avaya Aura Core Components Integration (71200X)
- Avaya IP Office Integration & Configuration
- Avaya Aura CM Basic Features Administration

Network Intern — New Horizons, Mansoura (2021)

- CompTIA Network+
- CCNA 200-301
- CCNA Voice

Web Development Intern — New Horizons, Mansoura (2020)

- HTML5
- CSS3
- JavaScript
- Bootstrap
- PHP

Cisco Black Belt Training & Certifications (2025 – 2026)

- Cloud Calling (Stages 1–3)
- Cloud Calling Presales (Stages 1–3)
- Collaboration Sales (Stages 1–2)
- On-Prem Collaboration Deployment & Presales
- Contact Center Enterprise Presales (Stages 1–3)
- UCCX / CCE / WebEx Collaboration Suite (Presales Stages 1–3)
- ISE Support Stage 2
- Selling Cisco Wearables & Peripherals

Certifications

- [CCNP Collaboration – Core \(CLCOR 350-801\) — Valid until April 2029](#)
- [CCNP Collaboration – Call Control & Mobility \(CLACCM 300-815\) — Valid until April 2029](#)
- [CCNP Collaboration – Collaboration Cloud Customer Experience \(CLCCE 300-830\) — Valid until April 2029](#)
- [Cisco Certified Network Professional Collaboration \(CCNP Collaboration\)](#)

Technical Skills

Cisco Unified Collaboration

- CUCM (Dial Plan, CSS/Partitions, SIP Trunks, Mobility, Endpoint Provisioning)
- IM&P (Jabber/WebEx, HA, Presence Services)
- Unity Connection (Call Handlers, Voicemail integration, MWI)
- Expressway C/E (MRA, LDAP, Certificates, Hybrid Services)
- WebEx Control Hub & Hybrid Calendar/Messaging/Meetings

Cisco UCCX / Contact Centre

- UCCX IVR Script Development (Script Editor)
- CSQ/Skills/Agents/Teams Management
- Triggers, CTI Ports, Call Variables
- Finesse Administration
- Queuing & IVR Logic Optimization
- Contact Centre Troubleshooting

VoIP Protocols & Analysis

- SIP, RTP, SRTP, SCCP, H.323
- SIP Call Flow Analysis

- Wireshark, RTMT, and Log/Trace Debugging
- Media/Codec Negotiation (G.711, G.729, Opus)

Voice Gateways

- CUBE configuration
- SIP Dial-peers
- MGCP/SCCP Basics
- SRST
- PSTN Integration

Open-Source PBX

- FreePBX, Issabel, Asterisk
- IVR, Routing, SIP Trunks, Troubleshooting

Programming / Automation

- Python (Basics)
- JavaScript (Basics)
- Familiarity with REST APIs (DevNet path)

Pre-Sales & Solution Design Skills

- **Solution Scoping & Requirements Gathering**
Skilled at identifying customer business requirements, conducting technical discovery sessions, and translating needs into clear solution scopes.
- **Statement of Work (SoW) Development**
Able to create detailed SoW documents that define scope boundaries, deliverables, timelines, assumptions, and dependencies for collaboration and contact center projects.
- **Technical Proposal Writing**
Experienced in preparing structured technical proposals including architecture diagrams, solution descriptions, deployment approach, and bill of materials (BoM).
- **High-Level & Low-Level Design (HLD/LLD)**
Capable of producing detailed design documents for Cisco Collaboration, UCCX, and Voice solutions — covering call flows, network topology, integration points, and security requirements.
- **Sizing & Capacity Planning**
Proficient in analysing customer environments to estimate required licenses, hardware sizing, VM specs, HA/DR requirements, and bandwidth calculations.

- **RFP/RFI Response Preparation**
Able to respond to tenders with structured documents addressing technical scope, compliance, architecture, features, and project execution methodology.
- **Solution Demonstrations & Presentations**
Strong at delivering technical demos, walkthroughs, and presentations for Cisco UC/UCCX/Webex solutions to both technical and non-technical audiences.

Soft Skills

- Problem Solving
- Strong Communication & Client Handling
- Time Management
- Team Collaboration
- Attention to Detail
- Fast Learner & Adaptive

Languages

- **English:** Fluent
